

Smart Shelter Foundation aims to improve the living quality of the poorest people in South Asia, and supports them in the fields of housing, sanitation and their direct living environment.

## Opvangtehuis voor blinde studenten

### Location:

Bhandar Dhik, Kaski District, Nepal. Near the highway to Pokhara. This school has over 1150 students and 31 teachers. Also present here is a classroom for blind students and their blind teachers.

### Project:

Construction of a hostel for 20 blind and visually impaired children and their guides. The children come from the rural mountain areas from all over Kaski District. The specially adjusted design will include room for recreation, sleeping, cooking and decent sanitation. Also we will take a look at the school premises.

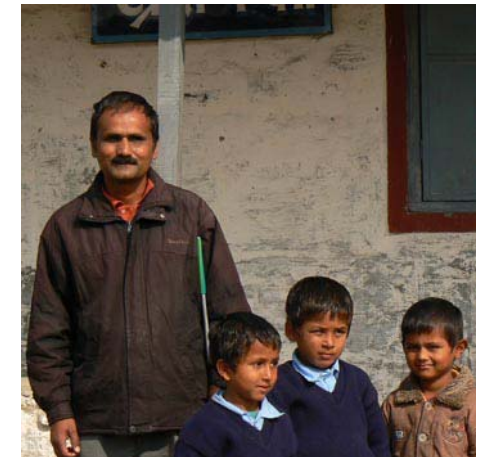

### Project costs:

Currently we are working on the drawings and the estimate, which will be around 20.000 to 25.000 euro. More info soon!

### Execution:

Fall of 2008. Please visit our website for more information.

*This is the classroom for the blind children. The hostel, which is too small, is located far away from the school.*
